OPEN WEEKEND

September 9th ~ 10th 1989

NATIONAL POWER HARTLEPOOL POWER STATION 1989 OPEN WEEKEND

I would like on behalf of National Power to welcome you to the Power Station Open Weekend.

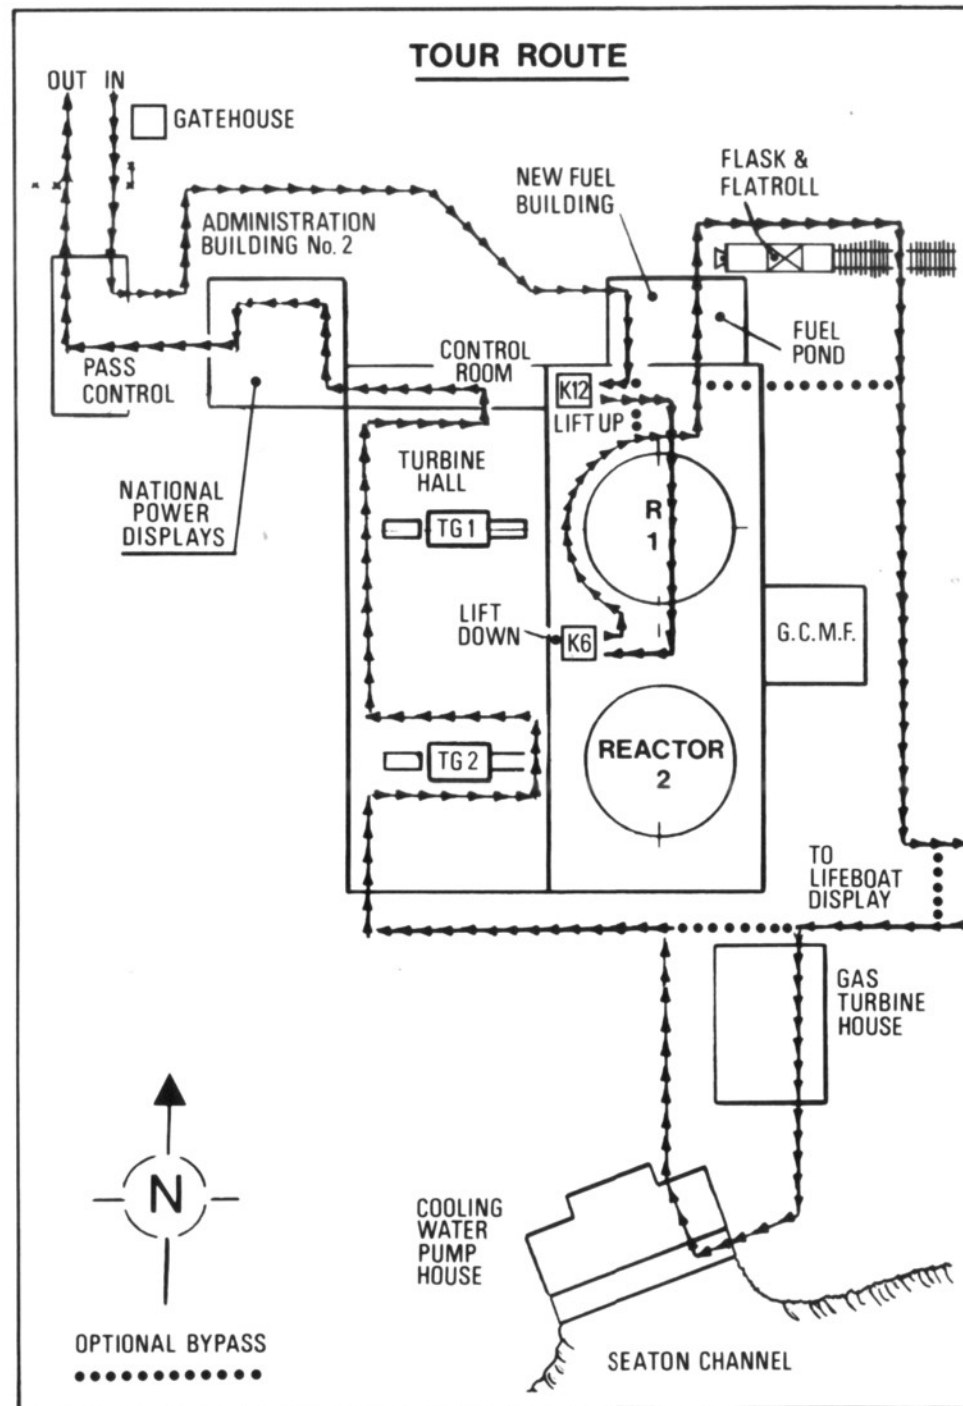

This is our third such event and is the first under the auspices of National Power, which is the larger of the two generating companies formed to succeed the C.E.G.B. The new company identity was launched on August 16th of this year, and we will become a private company early next year. The logo and our new livery shown on the front of this leaflet will become a familiar sight.

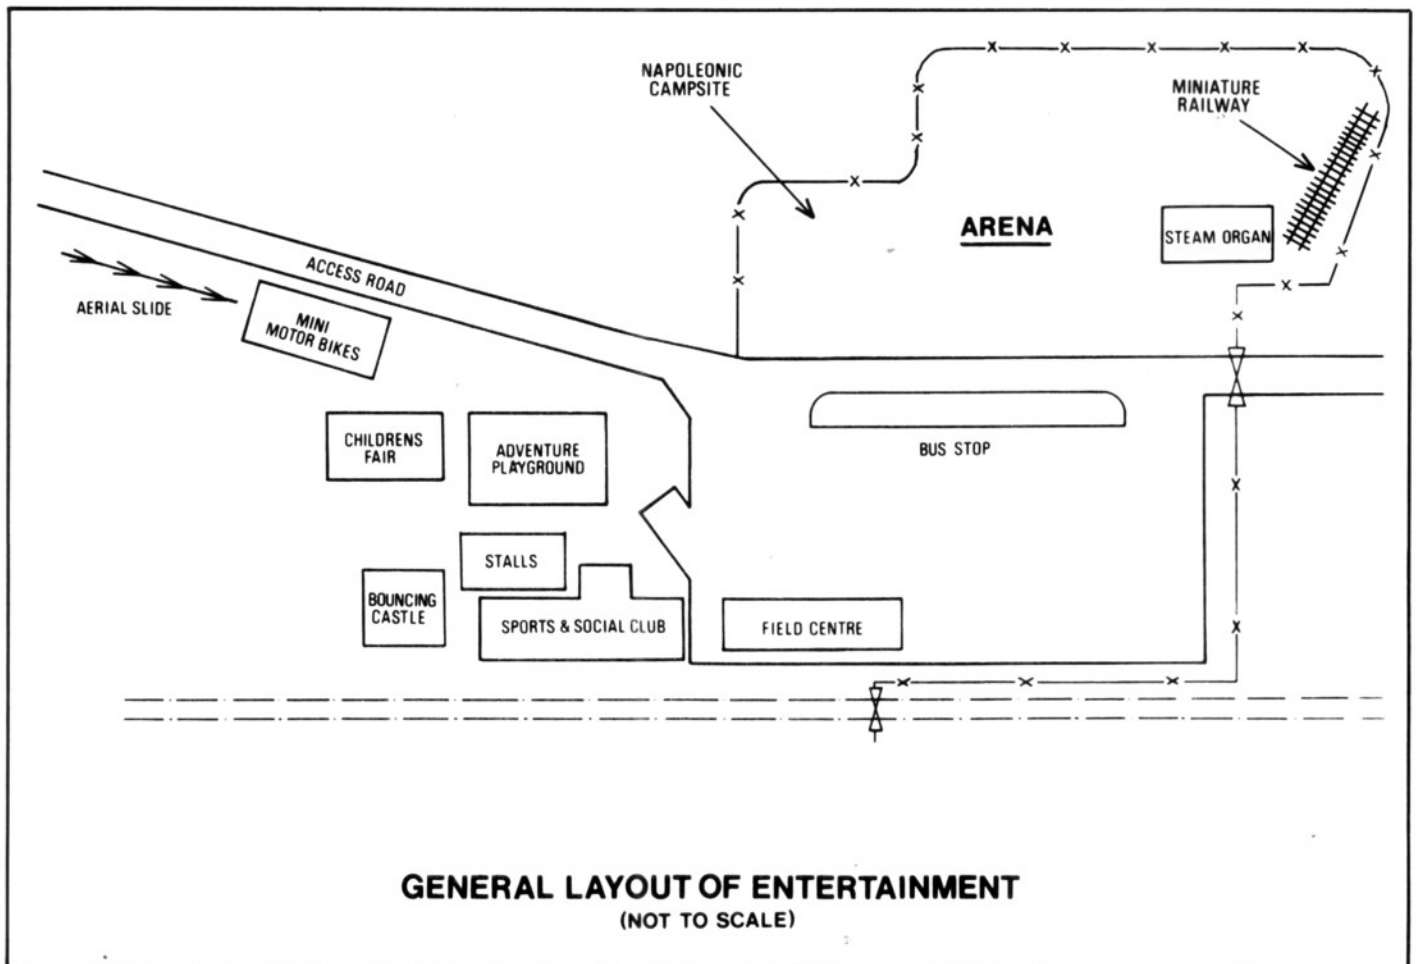

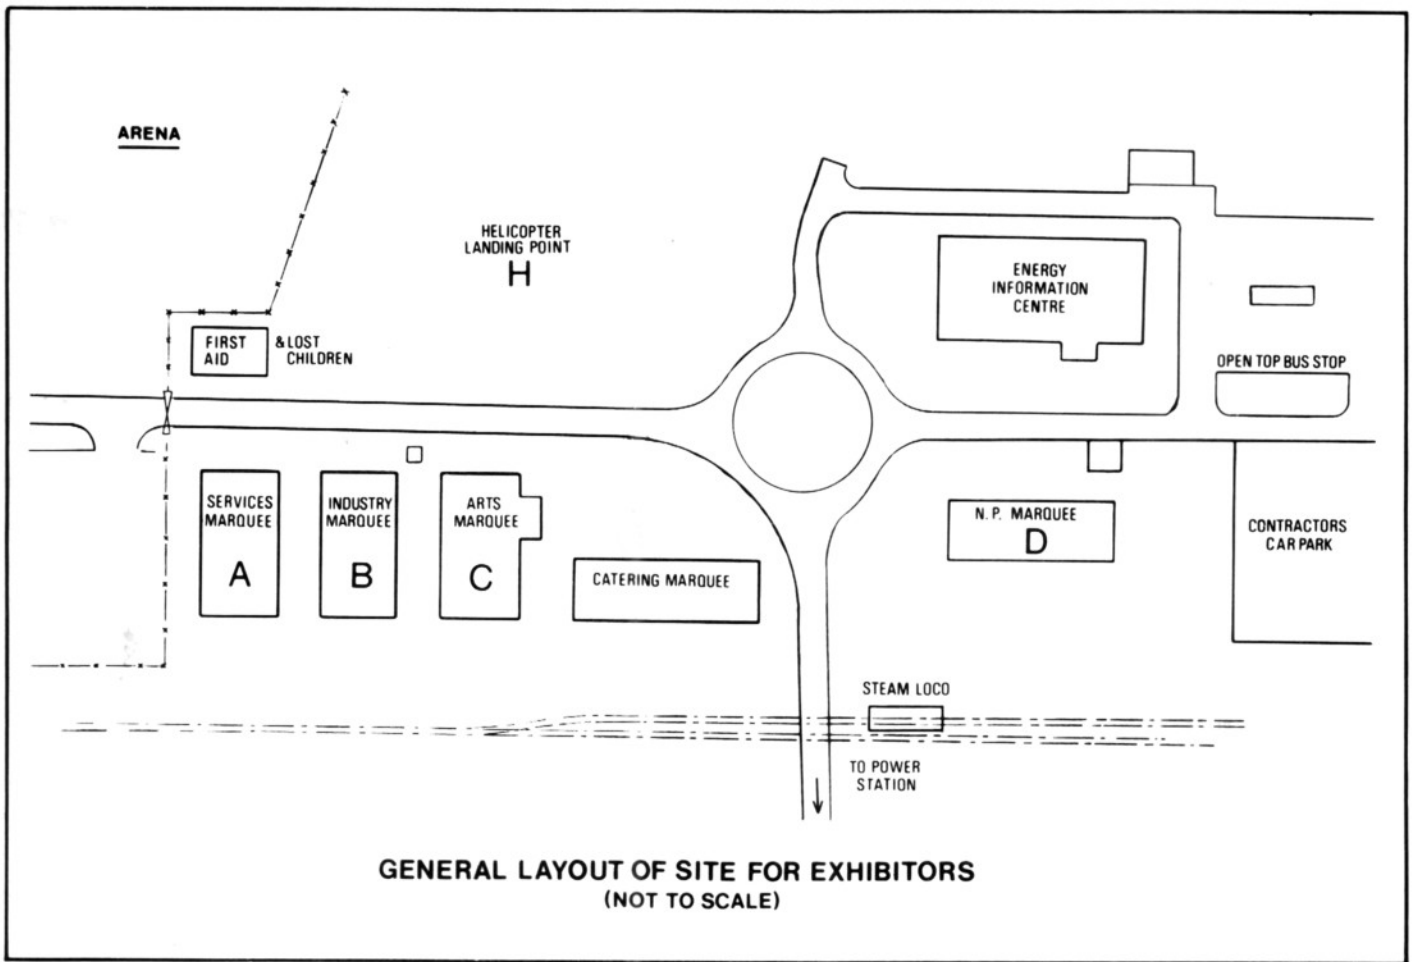

Although the move towards privatisation will cause many internal changes, outwardly our role will continue to be one of generating electricity in a safe and efficient manner with full consideration for our staff, our public responsibilities and care for the environment. The aim of National Power is to achieve quality in all aspects of our business.

Whilst the Main purpose of our open weekend is to encourage you to tour the Power Station a number of events and displays have been organised in the adjacent grounds and I sincerely hope that you will take advantage of these during your visit, and will have a thoroughly enjoyable day.

Clive Smitton

Dr. Clive Smitton
Station Manager
